ADD UNDER HERO

CREDIBILITY

A refined look at results delivered across a range of partners.

Increased campaign performance, driving higher conversions and revenue

Scaled email and SMS into meaningful revenue drivers

Supported collection launches with stronger sell-through and demand.

Improved retention with more relevant customer journeys and strategic CRM and lifecycle efforts

## WHO WE WORK WITH

We partner with design-led, growth-focused fashion and lifestyle brands.

These are brands with strong products and identity where marketing has started to feel inconsistent or disconnected.

## THE PROBLEM

It is not that your brand needs more marketing.

You already have a clear point of view, strong product, and a defined aesthetic.

Marketing begins to feel fragmented across channels, inconsistent across campaigns, and disconnected from the brand itself.

## WHAT WE DO

Channels don't define our work, outcomes do

We build and run marketing as a connected system where brand, creative, and performance work together.

From strategy to execution, every piece is connected and built to perform.

What We Own

HOW WE PARTNER

WHERE WE SIT

We sit between product and brand.

We shape what you are creating into how it shows up across every customer moment

We operate as a long-term partner, by design, not by default.

KDC SYSTEM

Our work is grounded in a system that turns campaigns into measurable growth.  
Campaign planning, CRM, and performance tracking.

It is designed to generate insight, not just activity.

On-brand in every detail. Built to deliver.

VALUE

More cohesive launches lead to higher sell-through

Stronger storytelling increases conversion and average order value.

Stronger CRM drives repeat purchase, long-term retention, and customer connection

When channels align, growth accelerates
